

Cool and Unique, Barcelona Coast

Ref: PH103301

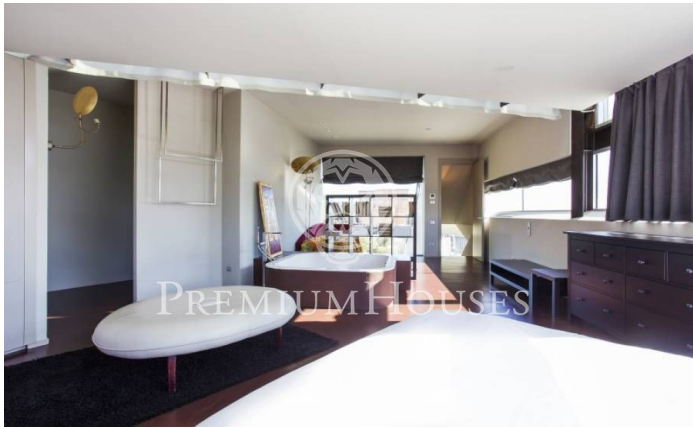

Sant Andreu de Llavaneres / Maresme/Barcelona Costa Norte

Spectacular designer house in the center of Sant Andreu de Llavaneres with beautiful sea views. Constructed in Zinc, it emphasizes its color and its shape, without any right angle and with large glass spaces that allow sunlight to enter all day. Entering the house we find a large living room with large glass doors that give access to the garden and water area, a large designer kitchen with sliding doors to communicate with the garden and barbecue area, plus a room service. As for the rooms we find a large suite with dressing room and washbasin with direct access to the water area composed by heated pool, sauna, jacuzzi and whirlpool. All this area can be used both in summer and winter as the glass is automatically sliding. On the same floor there is a games room or office, two bedrooms and a toilet. On the upper floor we find a large glazed room with jacuzzi and bathroom. It has a garage with capacity for more than 10 cars, a room with bathroom and kitchen for the staff, a warehouse, engine room and a large freezer. The heating is radiant and has solar panels. Barcelona Coast is the part of Barcelona located in front of the sea, 160 km of coastline, 111 beaches and 16 marinas. It is a long narrow strip of land between the sea and the mountains, with more than 2,500 hours...
